

*Merry Christmas  
&  
Prosperous Happy New Year 2020*

# Season Greetings & Updates

Dear Friends of Umoja,

The community of Umoja Uaso Women Group and Umoja Muehlbauer Academy wishes all benefactors happy, cheerful and peaceful holidays. With your help, the living conditions could be fundamentally improved within a few years. Using the school as an example, we would like to briefly demonstrate what has been achieved. :-

- Due to P+7 class sponsorships, 79 girls can already be saved from the cruel female genital mutilation. At the same time, these girls are protected from early marriage, which is often accompanied by incurable sexually transmitted infections
- School meals have been improved and secured; thus balanced diet and healthy living of the pupils
- The teachers and employees of the school demonstrate their professionalism and efficiency in a motivated manner, also because they all receive their salaries without a day's delay at the end of the month; this is not self-evident in Kenya
- Construction of 3 eco toilets, bathrooms and wash area was done this year thus improved personal hygiene of pupils and avoiding conterminous infections
- Construction of food store with a charcoal annex cold room has enabled buying of bulk foods from wholesalers cutting off middlemen thus reducing cost of meals
- Construction of a new modern kitchen and installation of standard food boiler has improved food hygiene and complying with Department of Public Health and Ministry of Education qualities
- Construction of 4 standard classrooms and a locker room has expanded the school infrastructure and will increase enrolment and offering better learning environment
- Enhanced networking and partnership
- School Second Terms – May – exposure trips has enhanced our learners experience and orientations of real world findings improving their performance
- Installation of water desalination system has offered clean and safe drinking water and for cooking promoting good health
